

Make your own orrery

NB Print on thick paper or cardboard if possible

MAKE YOUR OWN ORRERY

Instructions

1. Colour the sun and planets
2. Cut out the pieces
3. Laminate them (optional)
4. Make small holes in all the blue dots
5. Put the pieces together with split clips

HINT 1: Put the longest connector behind and shorter in front, and the «Earth-Moon»-connector in front of the «Sun-Earth»-connector.

HINT 2: If you want to make an easier but still interesting model to play with, cut out only the Sun, Earth and Moon.
